

Advanced WLAN Software for Business Use

- **Advanced Business-Level Security** – Enhanced Wi-Fi Companion (e-WFC) secures proprietary business data communicating between your SoMo 650 and a wireless network with tiered levels of security
- **CCX Certified** – The software is certified for Cisco Compatible Extensions (CCX) version 4, so you can easily connect to Cisco WLAN products, found in nearly two-thirds of business Wi-Fi infrastructure today
- **Fast Roaming** – Enhanced Wi-Fi Companion includes support for CCKM for fast roaming between access points, making it ideal for time-sensitive applications such as Voice over IP (VoIP) and streaming video

Supported WLAN Security Protocols

Authentication	Encryption	EAP
WEP-Open	Disabled with support for 802.1x WEP 64 with support for 802.1x WEP 128 with support for 802.1x	
WEP-Shared	WEP 64 with support for 802.1x WEP 128 with support for 802.1x	
WPA_Personal WPA2_Personal	TKIP AES-CCMP	
WPA_Enterprise WPA2_Enterprise	TKIP AES-CCMP	FAST with support for CCKM LEAP with support for CCKM TTLS-MSCHAPv2 PEAPv0/MSCHAPv2 PEAPv1/GTC TLS

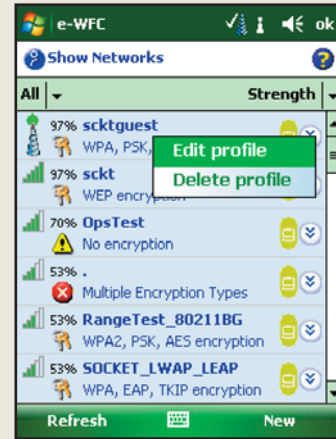

FEATURES

- CCX 4.0 certified to ensure compatibility with Cisco WLAN infrastructure, including features for enhanced security, mobility, quality of service and network management
- Supports tiered levels of security
- Highly scalable
- Support for a wide range of security protocols, including all EAP authentication processes
- Support for Wi-Fi Multimedia (WMM), a standard for Quality of Service (QoS)
- Support for CCKM based Fast Roaming
- Great for time-sensitive applications, with voice-specific enhancements for Voice over IP (VoIP) and streaming video
- User-friendly graphical interface shows connection properties at a glance. Tap on icons to quickly view IP addresses, install security certificates, find WLANs in range, and perform other functions
- Wi-Fi Finder provides detailed information about networks in range. You can filter and sort through the list to find the WLAN you want
- Profile editor automatically detects your WLAN settings and populates configuration fields
- Power Save utility includes automatic power management option to help you conserve battery power
- For advanced users, ping and trace route utilities provide valuable troubleshooting tools with comprehensive statistics displayed in handy graphs and tables
- Pre-loaded on the SoMo 650 and easy to install (not included with SoMo 650DX, which does not have Wi-Fi)

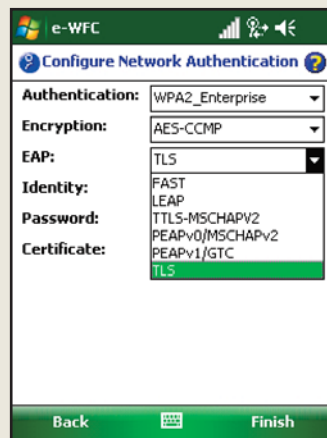

Enhanced Wi-Fi Companion™ Software

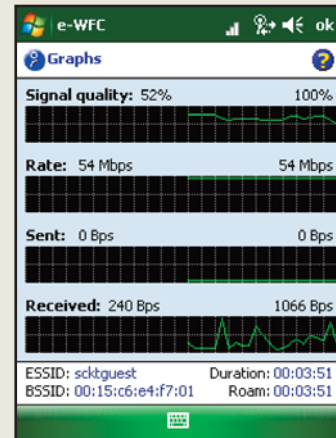

Graphical main screen shows connection properties at a glance

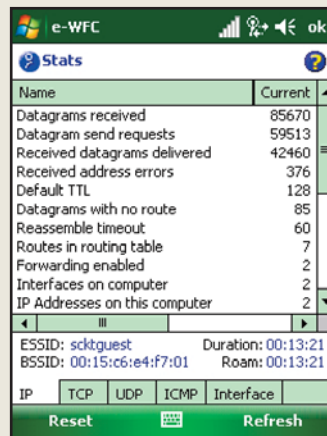

Wi-Fi Finder shows detailed data about wireless networks in range

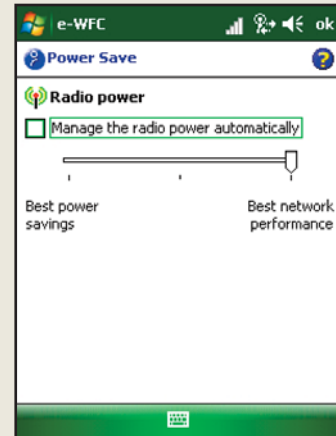

Profile editor automatically detects WLAN settings and populates fields

Real-time graphs of signal quality, data rate, and more

Comprehensive connection statistics shown in handy tables

Power Save options help you conserve battery power
